The Institute of Museum and Library Services is the primary source of federal support for the nation's 123,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. To learn more about the Institute, please visit [www.ims.gov](http://www.ims.gov).

## I. Introduction

This survey file contains final data on state library agencies in the 50 states and the District of Columbia for fiscal year (FY) 2009. The data were collected through the State Library Agencies (StLA) Survey, a voluntary survey conducted annually by the Institute of Museum and Library Services (IMLS)<sup>1</sup>. The survey is a cooperative effort of the Chief Officers of State Library Agencies (COSLA), the U.S. Census Bureau (the data collection agent), and IMLS. The FY 2009 StLA Survey is the 16th in the series.

### Background

A state library agency is the official agency of a state charged by state law with the extension and development of public library services throughout the state and which has adequate authority under state law to administer state plans in accordance with the provisions of the Library Services and Technology Act (LSTA) (P.L. 104–208). State library agencies provide important reference and information services to state government and administer the state library and special operations such as state archives, libraries for the blind and physically handicapped, and the State Center for the Book. State library agencies may also function as the state's public library at large, providing library services to the general public.

The state library agencies in Hawaii, Maryland, and the District of Columbia are administrative offices only, they do not have collections. In Hawaii, the main library of the Hawaii State Public Library System is the Hawaii State Library. In Maryland, state law designates Enoch Pratt Free Library's central library as the Maryland State Library Resource Center. In the District of Columbia, the Martin Luther King, Jr. Memorial Library, the central library of the District of Columbia Public Library, functions as a resource center for the municipal government. These collections are reported on the IMLS Public Libraries Survey (PLS).

The Idaho state library agency houses a professional library development collection as a resource for libraries and librarians in the state, but no longer provides library services to the general public and state government employees.

### Purpose of Survey

The purpose of the StLA Survey is to provide state and federal policymakers and other interested users with information about state library agencies. The data collected are useful to (1) chief officers of StLAs, (2) policymakers in the executive and legislative branches of federal and state governments, (3) government and library administrators at federal, state, and local levels, (4) the American Library Association and its members or customers, (5) library and public policy researchers, and (6) the public, journalists, and others. Decision makers use this survey to obtain information about services and fiscal practices.

The data collected on state library agency services to public, academic, school, and special libraries, as well as library cooperatives, when added to the data collected through the National Center for Education Statistics (NCES) surveys of academic and school libraries and the IMLS Public Libraries Survey help complete the national picture of library service.

### Congressional Authorization

IMLS will fulfill the congressional mandate in the Museum and Library Services Act of 2003 as stated in SEC. 210. Analysis of Impact of Museum and Library Services:

From amounts described in sections 214(c) and 275(b), the Director shall carry out and publish analyses of the impact of...library services. Such analyses—

(1) Shall be conducted in ongoing consultation with—

- (A) State library administrative agencies;
- (B) State, regional, and national library...organizations; and
- (C) Other relevant agencies and organizations;

(2) Shall identify national needs for, and trends of...library services provided with funds made available under subtitles B and C...

IMLS library survey activities will be designed to address high-priority library data needs; provide consistent, reliable, complete, and accurate indicators of the status and trends of state and public libraries; and report timely, useful, and

high-quality data to the U.S. Congress, the states, other education policymakers, practitioners, data users, and the general public.

## **II. User's Guide**

### **II. A. Survey Methodology**

This survey file contains final data on state library agencies in the 50 states and the District of Columbia for FY 2009.

#### **Survey Questionnaire**

The StLA data are collected over the Internet via a web-based reporting system. The web application includes a user guide and tutorial that explain its features and operation, the survey questionnaire, and an edit check tool. The web application was designed to minimize response burden, to improve data quality and timeliness, and to require minimal or no edit follow-up for data problems.

The FY 2009 survey collected data on 280 items<sup>2</sup>, including state library agency identification, governance, public service hours, service outlets, collections, library service transactions, library development transactions, services to other libraries in the state, allied operations, staff, revenue, expenditures, and electronic services and information. The data items and definitions are provided in the survey questionnaire in Appendix C. Note: Data were not collected for survey items 239-241 in Part N due to inconsistent reporting. These items have been reviewed and they will be removed from the next survey collection.

**Reporting Period.** The FY 2009 StLA Survey requested data for state fiscal year 2009, except for items in Part B—Governance and Part I—Staff, which requested data as of October 1, 2009. The fiscal year of most states was July 1, 2008 to June 30, 2009. Exceptions were New York (April 1, 2008 to March 31, 2009); Texas (September 1, 2008 to August 31, 2009); and Alabama, the District of Columbia, and Michigan (October 1, 2008 to September 30, 2009).

#### **Survey Universe**

The survey universe is comprised of the state library agencies in the 50 states and the District of Columbia (51 total).

#### **Survey Response Rate**

**Unit Response.** The FY 2009 StLA Survey achieved a 100 percent unit response rate. Respondents to the survey are defined as state library agencies that reported at least three of the five following items: total staff, total revenue, total expenditures, book and serial volumes, and total circulation.

**Item Response.** Item response rates were calculated by dividing the total number of state library agencies reporting data for an item by the total number of state library agencies in the survey universe. Appendix D presents further information on item response rates.

#### **Data Collection and Processing**

The StLA Survey was released on the web to state library agencies for data entry on October 14, 2009. The survey due date was February 17, 2010. The Census Bureau was the data processing agent for the survey through an interagency agreement with IMLS. The Census Bureau administered the web application, provided technical support to respondents, performed edit and nonresponse follow-up, and produced the data files and tabulations.

To reduce response burden, the survey was transmitted with pre-entered prior-year data for about 64 percent of the survey items where the data were not expected to change annually. The respondent was requested to review the pre-entered data and update any information that had changed from the previous year. All other data cells were left blank for the respondent to fill in. If the respondent could not provide the data for a numeric field, the web application required a response of -1 to be entered for the item. All alphanumeric items required a response, except items that could be skipped. The respondent could not submit data unless these conditions were met. A zero (0) is a reported response and indicates the state library agency had none of the item. Missing data were imputed. See the section below on "Imputation" for a discussion of the imputation methodology.

---

<sup>2</sup>All sub-totals and totals on the survey were automatically generated from the detail so are not included in this number.

An edit check tool alerted the respondent to questionable data during the data entry process through interactive “edit check warnings” and after the data were entered through edit check reports which could be viewed on-screen or printed. The edit check tool enabled the respondent to submit an edited data file to IMLS that usually required little or no follow-up for data problems. The edit check tool included three types of edits:

- **Relational edit checks.** This is a data consistency check between related data elements. For example, an edit message is generated if the state library agency is designated as a federal depository library but does not indicate the type of federal depository library.
- **Out-of-range edit checks.** This is a comparison of data reported for an item to the “acceptable range” of numeric values. For example, an edit message is generated if annual circulation transactions per annual library visits are less than 0.5.
- **Blank/zero/invalid edit checks.** This is a check of reported data against acceptable values. For example, an edit message is generated if the book/serial volumes items are 0 or blank.

IMLS and the Census Bureau reviewed the preliminary data file and draft tables for data quality issues. Based on this review, states with questionable data were contacted to request verification or correction of the data before the final file was created.

### **Imputation**

When responses are submitted for processing, sometimes answers are not given for every data item. In order to make complete datasets for constructing estimates of totals, we need to impute for missing data items. This section describes the imputation methods that were used to fill in for the missing data.

There was one method of imputation used on the FY 2009 data: the growth rule. There was no need to use the zero rule, the regression rule, or the sum rule. The data are identified as either imputed or reported on the survey data file through the use of imputation flags. The survey’s imputation methodology follows:

- **The Zero Rule.** If the state does not report a value for FY 2009 and the value is zero for FY 2008, then the value for FY 2009 is set to zero. This rule was applied on the assumption that there has been no change since FY 2008. The zero in the prior year could be an imputed value. There was no need to use the zero rule to impute missing data on the FY 2008 file.
- **The Growth Rule.** If the state does not report a value for FY 2009 and the value for FY 2008 is greater than zero, the growth rate from FY 2008 to FY 2009 is calculated for all states that have reported data in both years. The median of these growth rates is also calculated. The imputed value for FY 2009 is the median growth rate times the FY 2008 data. Although imputed prior year data are excluded from the growth rate calculations, the growth rule can be applied to prior year data that have been imputed. The method looks at the values for one prior year of data. States that cannot report a particular item tend to have ongoing problems reporting that item, so it is not useful to look back at FY 2007 data or earlier.
- **Regression Modeling.** Regression modeling uses auxiliary items that are reported by all states. The missing value is replaced with the regression-predicted value. Regression modeling is used for those variables for which states were unable to report a prior year value. There was no need to use regression modeling to impute missing data on the FY 2009 file.
- **The Sum Rule.** When the details of a total and the total are missing, the details are imputed by the zero rule, growth rule or regression rule. The imputed details are then summed to give the total. There was no need to use the sum rule to impute missing data on the FY 2009 file.

### **Nonsampling Error**

The data are not subject to sampling error since all units in the universe are surveyed. They are, however, subject to nonsampling error, such as errors in response, nonresponse errors, and processing errors. Every effort is made to mitigate such errors. The editing efforts described above are designed to decrease the number of errors due to inaccurate response or due to processing problems. Imputation lessens the effect of nonresponse.

## Using the Data to Make Comparisons

Missing data were imputed beginning with the FY 1999 survey. Therefore, users should take into consideration that items that include imputations are not strictly comparable to data prior to FY 1999 that include reported data only.

State comparisons should be made with caution because states vary in their fiscal year reporting periods, as previously indicated, and may vary in their interpretation of the survey definitions. The District of Columbia, while not a state, is included in the survey. Caution should be used in comparing data for a city to state data.

### II. B. Guidelines for Processing the Data File

The data file is provided in two formats: MS-Access (file name: istla09a.mdb) and ASCII (istla09a.txt). The ASCII and Access files consist of one record of fixed length for each StLA. The Access file is split into four tables (see below)—the imputation flags are in separate tables following the survey part they are related to; the imputation flags are listed at the end of the record layout (see Appendix A).

1. *istla09a\_part\_1* corresponds to survey Parts A to H (see list below);
2. *istla09a\_part\_1\_flags* contains the imputation flags and their values for Parts A to H;
3. *istla09a\_part\_2* corresponds to survey Parts I to N (see list below);
4. *istla09a\_part\_2\_flags* contains the imputation flags and their values for Parts I to N;

#### StLA Survey, by Part:

Part B Governance  
Part C Allied Operations, State Resource or Reference/Information Service Center, and State Center for the Book  
Part D Services to Libraries and Library Cooperatives  
Part E Public Service Hours, Outlets, and User Groups  
Part F Collections  
Part G Library Service Transactions  
Part H Library Development Transactions  
Part I Staff  
Part J Revenue  
Part K Expenditures  
Part L LSTA State Program Expenditures  
Part M Electronic Services and Information  
Part N Public Policy Issues

#### **How to remove imputed values from the data.**

To remove all imputed values from the data, the values of variables that have imputation flags of “Z”, “G”, “S”, or “T” should be removed. There are no values for variables that have an imputation flag of “B”. Every variable that has the possibility of being imputed has a flag. Below is the definition for each possible flag:

- R – Reported
- E – Reported and adjusted by the Census Bureau and IMLS based on edit follow-up
- Z – Missing value imputed as zero because FY 2008 value was zero
- G – Missing value imputed through growth rate applied to FY 2008 value
- S – Missing value imputed through regression model on FY 2009 data
- T – Missing total value imputed by summing the details
- B – Blank Field – applies to items 239-241 only

### Part M. Electronic Services and Information (a)

**21. Does the StLA fund or facilitate any of the following electronic networking functions at the state level? Specify Yes or No for each item.**

- 206  Yes  No Electronic network planning or monitoring  
 207  Yes  No Electronic network operation

Database development:

- 208  Yes  No Bibliographic databases  
 209  Yes  No Full text or data files

**22. Does the StLA fund or facilitate digitization or digital programs or services in any of the following instances? Specify Yes or No for each item.**

- 210a  Yes  No For the StLA itself  
 210b  Yes  No Via grants or contracts to other state agencies  
 210c  Yes  No Via grants or contracts to other libraries or library cooperatives

**23. Does the StLA fund or facilitate library access to the Internet in any of the following ways? Specify Yes or No for each item.**

Training or consulting to facilitate access:

- 211a  Yes  No Library staff (state and local)  
 211b  Yes  No State library end-users  
  
 212  Yes  No Providing direct funding for Internet access  
 213  Yes  No Providing equipment  
 214  Yes  No Providing access to directories, databases, or online catalogs via the Internet  
 215  Yes  No Managing a web site, file server, bulletin boards, or electronic mailing lists

**24. Enter the number of workstations that are used for Internet access by the general public in all StLA outlets that serve the public, by the following categories. Include terminals used by both the StLA staff and the public. Exclude terminals that are for StLA staff use only.**

	Internet workstations available to the general public	Number
220a	<b>Library-owned</b> public-access graphical workstations that connect to the Internet for a dedicated purpose (e.g., to access an OPAC or specific database, or to train the public) or multiple purposes. (For this count, the term "library-owned" includes computers leased by the state library agency.)	
220b	<b>All other</b> public access Internet workstations in the library. (Report non-library computers placed in the library by other agencies or groups. Report non-graphical workstations.)	

## Appendix C—Survey Questionnaire

### Part M. Electronic Services and Information (b)

**25. How much does the StLA expend for statewide database licensing, by source of revenue? These expenditures should also be reported in Part K.**

	Federal (a)	State (b)	Other (c)	TOTAL (d)
223 Statewide database licensing	_____	_____	_____	_____

**26. Do your statewide database licenses, paid for by funds reported in question 25, include access by the following? Specify Yes or No for each item.**

- 224  Yes     No    Public libraries
- 225  Yes     No    Academic libraries
- 226  Yes     No    School library media centers
- 227  Yes     No    Special libraries
- 228  Yes     No    Library cooperatives
- 229  Yes     No    Other state agencies
- 230  Yes     No    Remote users

**27. Does the StLA facilitate or subsidize electronic access to the bibliographic records or holdings of other libraries in the state in any of the following ways? Specify Yes or No for each item.**

- 231  Yes     No    CD-ROM union catalog
- 233  Yes     No    Telnet gateway
- 234  Yes     No    Web-based union catalog (international, national, statewide, multistate, regional)
- 236  Yes     No    Other type of electronic access
- 237            Specify \_\_\_\_\_

**28. Is the StLA an applicant for the Universal Service (E-rate discount) Program? Specify Yes or No.**

- 238  Yes     No

### Part N. Public Policy Issues (Data not collected of question 29 for FY2009)

**29. Enter total grants and contracts expenditures (from all sources) by the StLA to assist public libraries in responding to goals in a state or federal education reform initiative in the following areas. These expenditures should also be reported in Part K.**

		Amount
239	Library technology, connectivity and services	
240	Services to persons having difficulty using libraries	
241	Services for lifelong learning

## FY 2009 StLA Survey

### Instructions

A State Library Agency (StLA) is the official agency of a State charged by law of that State with the extension and development of public library services throughout the State, which has adequate authority under law of the State to administer State plans in accordance with the provisions of the Library Services and Technology Act (LSTA). State Library Agency is abbreviated throughout this survey as StLA.

given, please do so;

(b) 0 (zero) if the answer is zero or none; or

(c) -1 if your StLA has the item but does not collect data on the item, or if you don't know the answer.

### SPECIFIC INSTRUCTIONS

#### Part A. State Library Agency Identification

- 001 StLA name. Enter the full official name of the StLA.  
Physical Location Address
- 002-006 Enter the address of the physical location of the StLA. Include the street address, city, State, Zip Code, and Zip + 4.  
Mailing Address
- 007-010b Enter the mailing address of the StLA. Include the street address or post office box, city, State, Zip code, and Zip + 4.
- 011 Web address. Enter the web address of the StLA. The web address is the Uniform Resource Locator (URL) of the World Wide Web home page of the StLA.  
Chief Officer of StLA
- 012-016 Enter the name, title, telephone number, fax number, and email address of the chief officer of the StLA.  
Survey Respondent
- 017-021 Enter the name, title, telephone number, fax number, and email address of the respondent to this survey.  
Reporting Period
- 022-023 Fiscal year starting and ending dates. Enter the starting and ending dates for State fiscal year 2009, which is the period for which data in this report are requested (except Part B and Part I data). Enter the month and day in two digits each, and the year in four digits. For example: June 30, 2009 would be entered as 06/30/2009.

#### Part B. Governance

1. Specify the StLA's location in State government as of October 1, 2009.
- 024 (This item is reserved for future use.)
- 025 Branch of government. Specify the branch of government in which the StLA is located.

## Appendix C—Survey Questionnaire

026-033 Type of executive branch agency. If the StLA is located in the Executive branch, specify whether the StLA is an independent agency or part of a larger agency. If the StLA is part of a larger agency that is not listed in item 029, enter the name of the agency in item 030.

034-039 (These items are reserved for future use.)

### **Part C. Allied Operations, State Resource or Reference/Information Service Center, and State Center for the Book**

2. Enter Yes or No for each item to indicate whether the StLA is combined with any of the allied operations listed below. Do not report a Library for the Blind and Physically Handicapped, a State Center for the Book, or a contract with another library or other entity to provide a service on behalf of the StLA.

Note: An allied operation is an office, bureau, division, center, or other organizational unit or service within an StLA with staff, mission, and resources to provide service not ordinarily considered a state library agency function. It is characterized by having:

(a) a specific mission, which may be a part of the StLA's overall mission statement;

(b) staff assigned for that mission; that staff usually includes professionals other than librarians (such as historians, archivists, curators, etc.) appropriate to its mission;

(c) a high-level manager or supervisor who reports to the StLA chief officer or to a deputy designated by the chief officer;

(d) financial resources clearly identified and managed for the operation.

Note: Do not report the following as allied operations: a Library for the Blind and Physically Handicapped, a State Center for the Book, a law library, or a contract with another library or other entity to provide a service on behalf of the StLA.

040 State archives. This operation is responsible for preserving and servicing noncurrent official records of State organizations and institutions that are of continuing value (1) to the legal and administrative functioning of State government, (2) for the verification and protection of the rights of individuals, and (3) for historical and other research. It usually includes records of antecedent colonial and territorial governments. Materials are stored, arranged, and described so that needed records can be found readily.

041 Primary State legislative research organization. This operation conducts research and gathers, digests, and analyzes information in a close and confidential relationship with members of the State legislature and their staff.

Note: As an allied service, the organization is distinguished from specialized reference service which a state library agency may provide to government and other users by responding to reference questions from legislative personnel, providing information service, furnishing bibliographic and net search results, and instructing and guiding users in conducting their research. At the federal level, the parallel might be the difference between parts of the Library of Congress: (1) the Congressional Research Service, and (2) various reference services and subject divisions of the Library.

042 State history museum/art gallery. This operation collects, preserves, and displays cultural artifacts and/or works of art related to the State's political, social, economic, and cultural history.

043 State records management service. This operation manages the life cycle of the State's own records and records of local government from creation to disposition. Disposition includes the preservation of certain records as well as the disposal of nonessential records.

## Appendix C—Survey Questionnaire

- 044 Other allied operation. If any other operations are allied with the StLA, enter Yes for this item.
- 045 Specify. If any other operations are allied with the StLA, enter the name of the operation in this item.
3. Enter Yes or No to indicate whether the StLA contracts with a local public library or academic library to serve as a State resource center or State reference/information service center.
- 046 State resource center or State reference/information service center. This is an operation outside the StLA, administered by a local public library or academic library, which provides library materials and information services to libraries and individuals throughout the state. It is administratively separate from the StLA but receives grant or contract funds from the StLA for providing services.
4. Enter Yes or No to indicate whether the StLA is the host institution for, or provides any funding to, a State Center for the Book.
- 047 State Center for the Book. The State Center for the Book is part of the Center for the Book program sponsored by the Library of Congress which promotes books, reading, and literacy, and is hosted or funded by the State.

### Part D. Services To Libraries and Library Cooperatives

5. Indicate which of the specified services are provided directly or by contract by the StLA to different types of libraries or library cooperatives. Specify Directly, Contract, or Not Provided for each service, for each type of library and library cooperatives.

Note: A library cooperative may serve single-type or multi-type libraries. Services provided directly by the StLA are those provided without any intermediary by the StLA to libraries or library cooperatives. Services provided by contract by the StLA are those provided by a third party or intermediary under legal contract to the StLA.

#### Type of Library

**Academic Library.** A library forming an integral part of a college, university, or other academic institution for postsecondary education, organized and administered to meet the needs of students, faculty, and affiliated staff of the institution.

**Public Library.** A library that serves all residents of a given community, district, or region, and (typically) receives its financial support, in whole or part, from public funds.

**School Library Media Center.** A library that is an integral part of the educational program of an elementary or secondary school with materials and services that meet the curricular, information, and recreational needs of students, teachers, and administrators.

**Special Library.** A library in a business firm, professional association, government agency, or other organized group; a library that is maintained by a parent organization to serve a specialized clientele; or an independent library that may provide materials or services, or both, to the public, a segment of the public, or to other libraries. Scope of collections and services are limited to the subject interests of the host or parent institution. Includes libraries in State institutions.

**Library Cooperative.** A Library Cooperative is an organization that has its own budget and staff and provides library and information services for the mutual benefit of participating or member libraries. The organization's participants or members are primarily libraries, which are not under the organization's administrative control. The organization may also be termed a network, system, district, or consortium. A Library Cooperative may serve single-type or multi-type libraries.

#### Services to Libraries and Library Cooperatives

## Appendix C—Survey Questionnaire

- 048 Accreditation of libraries. The StLA may officially endorse or approve libraries which meet criteria specified by the State.
- 049 Administration of LSTA grants. Includes determining compliance with eligibility criteria and performance standards, overseeing processes through which grant recipients are determined, announcing grant recipients and disbursing funds, monitoring and receiving reports from grant recipients, submitting plans and reports to the Office of Library Services within the Institute of Museum and Library Services, and other activities involved in the management of financial assistance provided by the federal government to libraries under the Library Services and Technology Act.
- 050 Administration of State aid. Includes determining compliance with eligibility criteria and performance standards, overseeing processes through which grant recipients are determined, announcing grant recipients and disbursing funds, monitoring and receiving reports from grant recipients, and other activities involved in the management of financial assistance provided by the State to libraries.
- 051 Certification of librarians. The StLA may credential library staff with the rank or title of librarian by attesting officially to their qualifications. These qualifications may include a master's degree from a graduate program accredited by the American Library Association, another level or type of educational attainment, confirmation of participation in continuing education activities, and/or residency in the State for a specified period.
- 052 Collection of library statistics. Every StLA collects statistics on public libraries and participates in the IMLS Public Libraries Survey (PLS). Many StLAs collect statistics on institutional and other special libraries. Some StLAs assist in the collection of academic library statistics. A few StLAs collect statistics on school library media centers. These data collections usually involve the design and administration of survey instruments as well as data entry and processing and report design and dissemination.
- 053 Consulting services. Individual or small-group contacts to help libraries to attain goals and objectives and to deal with specific needs and problems. Consultants provide guidance on problems of concern to local personnel, assistance in identifying problems not clearly recognized, and identification of opportunities for increased or improved performance to specific groups.
- 054 Continuing education programs. Includes staff development events for library personnel at all levels as well as training events for trustees and other State and local government officials who have authority over or responsibility for libraries.
- 055 Cooperative purchasing of library materials. Two or more independent libraries of any type engaging in joint activities related to purchasing materials, together with the maintenance of the necessary records of these additions. Also included are joint activities related to the identification and verification of titles, fund accounting, processing payments, and claims.
- 056 Interlibrary loan referral services. Activities involving bibliographic service centers or utilities, regional systems (federations or cooperatives), consortia, and resource centers, such as identifying libraries believed to own requested materials and/or transmitting interlibrary loan requests in accordance with established protocols or prevailing practices.
- 057 Library legislation preparation/review. Minimally, addresses the governance and financing of the StLA, public library service, and library service to blind and physically handicapped persons and residents of State institutions. It usually permits the types of public library structures, such as municipal, countywide, regional, federated, cooperative, and contractual agreements. It may also provide mandates for StLA functions, other types of libraries (e.g., academic, school), and multitype cooperation.
- 058 Library planning/evaluation/research. Activities involved in designing and assessing library programs and services and studying issues facing libraries. Examples: The Public Library Association (PLA) planning for results process for public libraries and the outcome based evaluation process.

## Appendix C—Survey Questionnaire

- 059 Literacy program support. Organized efforts to assist individuals with limited language and mathematical skills in developing skills in reading, writing, and computation that enable them to function in society without assistance from others.
- 060 OCLC Group Access Capability (GAC). Use of the Online Computer Library Center (OCLC) system, originally the Ohio College Library Center, by a group of libraries for resource sharing and interlibrary lending (ILL). Group Access Capability (GAC) related activities may include coordinating group profiling, establishing group policies, coordinating ILL protocols within the group, and referring requests outside of a GAC group.
- 061 Preservation/conservation services. Specific measures undertaken for the repair, maintenance, restoration, or protection of library materials, including but not limited to binding and rebinding, materials conversion (to microform for example), deacidification, and lamination.
- 062 Reference referral services. Provision of information about or from groups or organizations. A reference referral transaction involves the provision of information about a group or organization and its activities, services or agencies, and calendar. Such a transaction typically requires the determination of the user's need and the appropriate group or organization to meet the need. Such a transaction may require directing the user to persons or organizations external to the library for an answer to a question.
- 063 Retrospective conversion of bibliographic records. Retrospective conversion involves changing bibliographic records from one format, usually cards, to machine-readable form in order to produce or make additions to an automated catalog.
- 064 State standards/guidelines. The StLA may promulgate standards or guidelines that define adequacy, equity, and/or excellence in library service. Standards or guidelines may be quantitative, qualitative, or both. Maintaining standards or following guidelines may be a requirement for receiving State aid and/or LSTA grants.
- 065 Statewide coordinated digital program or service. Activities providing for the digitization of documents, publications, or sets of records or realia to be made available for public use (for example, digitization of a series of city reports, local newspapers, or genealogical records).
- 066 Statewide public relations/library promotion campaigns. A concerted public relations program usually organized around a particular theme or issue, with specific objectives, and using a variety of techniques in concert (e.g., press releases, events, publications, exhibits).
- 067 Statewide virtual reference service. Reference service supported by chat-based web technology that provides access for all or a significant portion of the residents of the state through libraries or remotely, typically on a 24-hours-per-day/7-days-a-week basis.
- 068 Summer reading program support. A statewide reading promotion campaign typically implemented between school years to encourage children and young adults to maintain or improve their reading skills.
- 069 Union list development. A list of titles of works, usually periodicals, and their locations in physically separate library collections.
- 070 Universal Service Program (review and approval of technology plans). The state library agency reviews and approves technology plans for libraries or library cooperatives applying for universal service discounts (also known as E-rate discounts) under the Universal Service Program, established by the Federal Communications Commission (FCC) under the Telecommunications Act of 1996.
- 071-076 (These items are reserved for future use.)

## Appendix C—Survey Questionnaire

### Part E. Public Service Hours, Outlets, and User Groups

6. Enter in the spaces provided the total hours open in a typical week for all StLA outlets (main or central, bookmobiles, and other outlets), regardless of whom they serve. Do not report an allied operations outlet as an StLA outlet. Example: If the StLA has a main outlet with no bookmobile or other outlets and is open for public service 40 hours in a typical week, report 40 hours. If the StLA has a main outlet, a bookmobile, and two other outlets open 40, 20, 35, and 35 hours, respectively, in a typical week, report 130 hours ( $40+20+35+35=130$  hours per typical week).

Note: Main or central outlet, bookmobiles, and other outlets (excluding bookmobiles) are defined in the instructions to question 8. Report total hours open in a typical week for all StLA outlets, regardless of whom they serve, and regardless of whether they are open on a walk-in or referral basis. Exclude data for a local public or academic library serving as a State resource center or State reference/information service center under contract with the StLA. Do not report data for non-StLA outlets, even though the StLA may provide funding or services to such outlets.

A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holidays, vacation periods, and days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days from Sunday through Saturday or whenever the library is usually open.

- 077a Total hours/week (all StLA outlets, regardless of whom they serve). Sum of hours open during a typical week for all StLA outlets (main or central, bookmobiles, and other outlets), regardless of whom they serve. Do not report an allied operations outlet as an StLA outlet.

7. Enter in the spaces provided the total hours that the main or central StLA outlet is open in a typical week to serve the general public or state government employees, by the specified categories. Only one outlet may be designated as the main or central outlet.

Note: Main or central outlet is defined in the instructions to question 8. Report public service hours for the main or central StLA outlet, regardless of whether the outlet is open on a walk-in or referral basis. Exclude data for a local public or academic library serving as a State resource center or State reference/information service center under contract with the StLA. Exclude service hours if the outlet only serves blind and physically handicapped individuals through the National Library Service for the Blind and Physically Handicapped, Library of Congress. Also exclude service hours if the outlet only serves residents of State correctional institutions or residents of other State institutions, unless the outlet is administered and staffed by the StLA. Do not report data for a non-StLA outlet, even though the StLA may provide funding or services to such an outlet.

- 077b Total hours/week (main or central outlet). Sum of hours open during a typical week for the main or central outlet.

- 078 Monday–Friday after 5:00 p.m. (main or central outlet). Sum of hours open after 5:00 p.m. Monday through Friday during a typical week for the main or central outlet.

- 079 Saturday and Sunday (main or central outlet). Sum of hours open on Saturday and Sunday during a typical week for the main or central outlet.

- 080-081 (These items are reserved for future use.)

8. Enter in the spaces provided the total number of StLA outlets, by type of outlet, regardless of whom they serve. Only one outlet may be designated as the main or central outlet. Do not report an allied operations outlet as an StLA outlet.

Note: An StLA outlet has regular hours of service in which StLA staff are present to serve its users. The staff and all service costs are paid by the StLA as part of its regular operation. A loan of books or total collections (whether permanent or short-term) to another agency, library, or school does not constitute an StLA outlet inasmuch as it is not administered and staffed by the StLA.

## Appendix C—Survey Questionnaire

- 082 Main or central outlet. A single unit library or the unit where the principal collections are located and handled. Note: An StLA administrative center which is separate from the principal collections and is not open to users should not be included as an outlet. Only one outlet may be designated as the main or central outlet. When two or more outlets are considered main or central outlets, one outlet should be designated as the central outlet and the others should be designated as “other outlets (excluding bookmobiles)”.
- 083 Other outlets (excluding bookmobiles). Units that have all of the following: (1) separate quarters; (2) a permanent basic collection of books and/or other materials; (3) a permanent paid staff; and (4) a regular schedule of hours open to users.
- 084 Bookmobiles. Trucks or vans specially equipped to carry books and other library materials. They serve as traveling branch libraries. Count vehicles in use, rather than the number of stops each vehicle makes.
- 085 Total outlets. Sum of items 082-084.
9. Enter in the spaces provided the number of StLA outlets that serve the following user groups, in whole or in part, by type of outlet.
- Note: Main or central outlet, bookmobiles, and other outlets (excluding bookmobiles) are defined in the instructions to question 8.
- 086 Blind and physically handicapped individuals. Outlets serving this user group may contain talking books on discs and tapes and books in Braille made available from the National Library Service for the Blind and Physically Handicapped, Library of Congress. In addition, such outlets may contain large print books for the visually handicapped and captioned films for the deaf. These outlets provide such library materials and library services to blind or physically handicapped residents who have been certified by competent authority as unable to read or to use conventional printed materials as a result of physical limitations.
- 087 Residents of State correctional institutions. Outlets serving this user group provide books, other library materials, and access to other information resources as well as other library services to residents of prisons, reformatories, and other correctional institutions operated or substantially supported by the State.
- 088 Residents of other State institutions. Outlets serving this user group provide books, other library materials, and access to other information resources as well as other library services to patients or residents of residential training schools, hospitals, nursing homes, and other general or special institutions operated or substantially supported by the State.
- 089 State government employees (executive, legislative, or judicial). Outlets serving this user group provide books, other library materials, and access to other information resources as well as other library services to employees of all branches of State government.
- 090 General public. Report all StLA outlets that serve the general public, regardless of whether they are open on a walk-in or referral basis. Outlets serving this user group function as the State-level equivalent of a local public library, providing books, other library materials, and electronic access to locally mounted and remote information resources for all State residents.

### Part F. Collections

10. Enter in the spaces provided the total number of volumes or physical units in the specified formats in all StLA outlets (main or central, bookmobiles, and other outlets) that serve the general public and/or State government employees.

## Appendix C—Survey Questionnaire

Note: Main or central outlet, bookmobiles, and other outlets (excluding bookmobiles) are defined in the instructions to question 8. Report collections for all StLA outlets that serve the general public, regardless of whether they are open on a walk-in or referral basis. Exclude data for a local public or academic library serving as a State resource center or State reference/information service center under contract with the StLA. Exclude collections of braille and talking books owned by the National Library Service for the Blind and Physically Handicapped, Library of Congress. Also exclude collections that are specifically intended to only serve residents of State correctional institutions or residents of other State institutions, unless such outlets are administered and staffed by the StLA.

- 091 Book and serial volumes (exclude microforms) (exclude collections of braille books owned by the National Library Service for the Blind and Physically Handicapped, Library of Congress). Books are non-periodical printed publications bound in hard or soft covers, or in loose-leaf format, of at least 49 pages, exclusive of the cover pages; or juvenile non-periodical publications of any length bound in hard or soft covers. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals reports, yearbooks, etc.) memoirs, proceedings, and transactions of societies. Except for the current volume, count unbounded serials as volumes when the library has at least half of the issues in a publisher's volume.
- 092 Audio materials (exclude collections of talking books owned by the National Library Service for the Blind and Physically Handicapped, Library of Congress). These are materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. Included are records, audiocassettes, audio cartridges, audiodiscs, audioreels, talking books, and other sound recordings.
- 093 (This item is reserved for future use.)
- 094 Video materials. These are materials on which pictures, sound, or both are recorded. Electronic playback reproduces pictures, sounds, or both using a television receiver or monitor.
- 095 Current serial subscriptions (titles, not individual issues) (include print subscriptions only) (exclude microform, electronic, and digital subscriptions). These include current subscriptions received, both purchased and gifts. This count does not include the number of individual issues, but rather each serial title. Report the total number of titles subscribed to, including duplicates. Do not report individual issues. Report print subscriptions only. Exclude microform, electronic, and digital subscriptions.
- 096 Government documents (include only government documents not accessible through the library catalog and not reported elsewhere). For government documents not accessible through the library catalog and not reported on other lines, report the number of volumes or physical units of such materials in all formats. A government document is a publication in any format bearing a government imprint. Includes publications of federal, State, local, and foreign governments and intergovernmental organizations to which governments belong and appoint representatives (e.g., United Nations, Organization of American States).
- 097-105 (These items are reserved for future use.)
11. Enter Yes or No for each item (106-109) to indicate whether the StLA is designated as a federal or State depository library for government documents, and whether it is a regional or selective federal depository.
- Note: A government document is a publication in any format bearing a government imprint. Includes publications of federal, State, local, and foreign governments and intergovernmental organizations to which governments belong and appoint representatives (e.g., United Nations, Organization of American States).
- 106 State depository library. A library officially designated as a depository of publications bearing the imprint of the State government.

## Appendix C—Survey Questionnaire

- 107 Federal depository library. A library officially designated as a depository of publications bearing the imprint of the federal government. These libraries receive publications issued by the executive, judicial, and the legislative branches at no charge in exchange for providing free public access. Enter Yes or No to items 108 and 109 to indicate if the StLA is a regional or selective depository
- 108 Regional. Regional depositories receive one copy of all materials distributed by the federal government.
- 109 Selective. Selective depositories receive only those materials they select.

### Part G. Library Service Transactions

12. Enter in the spaces provided ANNUAL totals for the specified types of service transactions for all StLA outlets (main or central, bookmobiles, and other outlets) that serve the general public and/or State government employees.
- Note: Main or central outlet, bookmobiles, and other outlets (excluding bookmobiles) are defined in the instructions to question 8. Report library service transactions for all StLA outlets that serve the general public, regardless of whether they are open on a walk-in or referral basis. Exclude data for a local public or academic library serving as a State resource center or State reference/information service center under contract with the StLA. Exclude service transactions for outlets or outlet service points that only serve blind and physically handicapped individuals through the National Library Service for the Blind and Physically Handicapped, Library of Congress. Also exclude service transactions for outlets that only serve residents of State correctional institutions or other State institutions, unless such outlets are administered and staffed by the StLA.
- 110 Circulation (exclude items checked out to another library). These are transactions that involve lending an item from the State Library collection or borrowed from another library for use generally, although not always, outside the library. This activity includes charging materials manually or electronically. Also report each renewal as a circulation transaction. Exclude in-house use resulting from counting items in the collection as they are reshelfed after use and without any formal tracking system. Exclude items checked out to another library.
- Interlibrary Loan/Document Delivery
- 111 Provided to other libraries. These are library materials, or copies of materials, loaned from the StLA collection to another library upon request. Do not include loans or copies of materials from one StLA outlet to another StLA outlet.
- 112 Received from other libraries and document delivery services. These are library materials, or copies of materials, borrowed by the StLA from another library or obtained by the StLA from a commercial document delivery service. Do not include loans or copies of materials from one StLA outlet to another StLA outlet.
- 113 Reference transactions. A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation or instruction in the use of one or more information sources by a member of the StLA staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable databases (including computer-assisted instruction), catalogs and other records of holdings, and, through communication or referral, other libraries, and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during the transaction. If necessary, multiply a typical week by 52. Exclude directional transactions. (See definition of typical week in question 6.)
- 114 Library visits. This is the total number of persons per year entering StLA outlets, including persons attending activities, meetings, and those persons requiring no staff services. If necessary, multiply a

## Appendix C—Survey Questionnaire

typical week by 52. A "typical week" is defined in the instructions to question 6.

### Part H. Library Development Transactions

13. Enter in the spaces provided ANNUAL totals for the specified types of library development transactions of the StLA.
- LSTA and State Grants
- 115 Grants awarded. Report the total annual number of LSTA and State grants awarded by the StLA during state fiscal year 2009.
- 116 (Item is reserved for future use.)
- Continuing Education Programs
- 117 Number of events. Report the total number of continuing education events (workshops, training sessions, etc.) which (1) the StLA sponsored and itself presented and (2) another agency presented with the help of StLA funding and planning support. Do not count events for which the StLA is only a nominal sponsor. Do not count events for an allied operation.
- Where event is offered via video conferencing, consider presentation simulcast to multiple locations as one event. If presentation is offered multiple times, each offering should be counted as a separate event. Where delivery is via synchronous web presentation and the number of concurrent participants is limited and they must sign up to participate, count each offering of the web training as one event. Where delivery is via the web with asynchronous participation and no limitation of participants, count web event as one event.
- 118 Total attendance at events. Report the total annual attendance at continuing education events reported in item 117. Attendance should include total number of participants in events regardless of delivery method. If web event is delivered asynchronously, recommend counting only participants who complete the continuing education offering.

### Part I. Staff

14. Enter in the spaces provided the total number of StLA staff in FTEs (full-time equivalents) (to two decimal places), by type of service. Report all staff on the payroll as of October 1, 2009, and unfilled but budgeted positions.
- Note: Forty hours per week is the measure of full-time employment for this survey. FTEs (full-time equivalents) of employees in any category may be computed by taking the number of hours worked per week by all employees in that category and dividing it by 40. Report staff based on the StLA organization chart. A given position (e.g., State Data Coordinator) may be part of administration in one agency, library development in another, and library services in another agency. If an employee provides more than one service, allocate the FTE among appropriate categories.
- Type of Service
- 119 Administration. Usually includes the chief officer of the StLA and his or her immediate staff. May include officers responsible for the StLA's fiscal affairs; public relations; and planning, evaluation, and research.

## Appendix C—Survey Questionnaire

- 120 Library development. Usually includes staff responsible for the development of public library services. May include staff responsible for administering State and LSTA grant programs; providing consulting and continuing education services; and promoting resource sharing and other forms of interlibrary cooperation. (See instructions to question 5 for definitions of types of libraries.)
- 121 Library services. Staff responsible for providing library service from the StLA. Includes public, technical, and other library services.
- 122 Other services. Includes staff not reported in items 119-121, such as staff in allied operations.
- 123 Total staff. Sum of items 119-122.
- 124-151 (These items are reserved for future use.)

### Part J. Revenue

15. Enter Yes or No to indicate whether all public library funds from state sources are administered by the StLA.
- Note: Answer this question based on state funds distributed to individual public libraries and library cooperatives serving public libraries only in state fiscal year 2009. If no state funds are reported in Part K in items 179(b) or 180(b), the answer should be No.
- 152 StLA administration of all public library state funds
16. Enter Yes or No to indicate whether any funds from state sources are administered by the StLA for the following types of libraries.
- Note: Answer this question based on state funds distributed to libraries and library cooperatives in state fiscal year 2009. If no state funds are reported in Part K in related items 179(b) to 183(b) or 185(b), the answer should be No.
- 153a Academic libraries (definition is provided in question 5).
- 153b School library media centers (definition is provided in question 5).
- 153c Special libraries (definition is provided in question 5).
- 153d Library cooperatives (definition is provided in question 5).
17. Enter in the spaces provided total funds received as revenue by the StLA during the reporting period specified in items 022-023. EXCLUDE carryover. Include revenue for allied operations only if the revenue is part of the StLA budget. Include all funds distributed to libraries and library cooperatives if the funds are administered by the StLA.
- Note: Exclude carryover when reporting revenue. Carryover means funds carried forward from the previous year, sometimes called an “opening balance” or “fund balance”.
- Federal Revenue
- 154 LSTA (Library Services and Technology Act) State Programs
- Note: Report the funds drawn down from the federal government from the LSTA State Program during state fiscal year 2009. Do not report LSTA National Leadership Grants--report these grants in item 155 (Other Federal revenue).

## Appendix C—Survey Questionnaire

- 155 Other Federal revenue. If the StLA received other federal revenue (e.g., National Endowment for the Humanities grants, National Historical Publications and Records Commission grants, LSCA Title II grants, LSTA National Leadership Grants, etc.), report that revenue in this item. If your state acts as the fiscal agent for a multi-state grant, report only the funds designated for your state.
- 156 Specify program(s) and title(s). If other federal revenue is reported in item 155, specify its source in this item.
- 157 Total Federal revenue. Sum of items 154 and 155.
- 158-166 (These items are reserved for future use.)
- State Revenue
- 167 StLA operation. Report revenue received from the State to support operation and services of the StLA. Do not include revenue received for major capital expenditures, contributions to endowments, or revenue passed through to another agency, or funds unspent in the previous fiscal year.
- 168 State aid to libraries. Report revenue received from the State for distribution to libraries, library cooperatives, and agencies. Include funds derived from State sources (exclusive of Federal funds) and appropriated by a State legislature to a State Library Agency for payment or transfer to an individual library; a group of libraries; or an agency or library, other than the StLA, that provides a Statewide service to libraries or citizens. Exclude State funds used to administer the State Library Agency or to deliver Statewide services to libraries or citizens where the service is administered directly by the StLA; State funds allocated for school library operations when the State Library Agency is under the State education agency; and federal funds.
- 169 Other State revenue. Report revenue received from the State for any other purpose, such as interagency transfers.
- 170 Total State revenue. Sum of items 167-169.
- 171 Other revenue. Include (1) any other revenue from public sources; (2) revenue received from private sources, such as foundations, corporations, Friends groups, and individuals; and (3) StLA-generated revenue, such as fines and fees for services.
- 172 Total revenue. Sum of items 157 +170 + 171.

### Part K. Expenditures

18. Enter in the spaces provided total StLA expenditures, by source of revenue and type of expenditure. Include all LSTA expenditures. Include expenditures for allied operations only if the expenditures are from the StLA budget. Include all funds distributed to libraries and library cooperatives if the funds are administered by the StLA.

Operating Expenditures for StLA and Allied Operations (items 173-178)

Note: These are the current and recurrent costs necessary to the provision of services by the StLA. Include LSTA expenditures for statewide services (item 190) conducted directly by the StLA. Include LSTA expenditures for LSTA administration (item 192). Exclude LSTA expenditures for grants (item 191). Do not include funds distributed to libraries and library cooperatives; report them instead in items 179 to 186.

## Appendix C—Survey Questionnaire

- 173 Salaries and wages. Salaries and wages for all StLA staff, including plant operation, security and maintenance staff for the reporting year. Include salaries and wages before deductions, but exclude employee benefits.
- 174 Employee benefits. Benefits outside of salaries and wages paid and accruing to employees, including plant operation, security and maintenance staff, regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts spent by the StLA for direct, paid employee benefits, including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, worker's compensation, tuition, and housing benefits. Only that part of any employee benefits paid out of the StLA budget should be reported.
- 175 Total staff expenditures. Sum of items 173-174.
- 176 Collection expenditures. Includes all expenditures for materials purchased or leased for use by StLA users, including print materials, microforms, machine-readable materials, audiovisual materials, etc.
- 177 Other operating expenditures. Includes all operating expenditures not reported in items 173-176.
- 178 Total operating expenditures. Sum of items 175-177.
- Financial Assistance to Libraries and Library Cooperatives (items 179-186)
- Note: Include LSTA expenditures for grants (item 191). Exclude LSTA expenditures for statewide services (190) conducted directly by the StLA and LSTA expenditures for LSTA administration (item 192). Include all funds distributed to libraries and library cooperatives if the funds are administered by the StLA.
- 179 Individual public libraries. Financial assistance to individual public libraries for services to their population of legal service area. These are libraries that are governed exclusively by a single board or political subdivision. Municipal libraries, county libraries, consolidated multi-county libraries, and library districts are considered individual libraries if there is only one administrative entity. Exclude construction aid.
- 180 Library cooperatives serving public libraries only. Financial assistance to library cooperatives serving public libraries only for services to their population of legal service area. Exclude construction aid.
- 181 Other individual libraries. Financial assistance to other individual libraries for services to their population or constituency. These are libraries other than public libraries and school library media centers. Exclude grants to public libraries and to school library media centers. Report financial assistance to school library media centers in item 185. Exclude construction aid.
- 182 Library cooperatives serving more than one type of library. Financial assistance to library cooperatives serving more than one type of library for services to their population of legal service area. Exclude construction aid.
- 183 Single agency or library providing statewide service. Financial assistance to a single entity (agency, library, library cooperative, etc.) for services offered to all libraries in the state, or all state residents, or a significant portion of all libraries or state residents. Exclude funds administered directly by the StLA to provide such services. Exclude construction aid.
- 184 Library construction. Do not report data for this item in items 179-183, 185, or 187. Includes construction of new buildings and acquisition, expansion, remodeling, and alteration of existing buildings, and the purchase, lease, and installation of equipment of any such buildings, or any combination of such activities (including architects' fees and the cost of acquisition of land). Equipment includes information and building technologies, video and telecommunications equipment, machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them. Exclude construction aid expended on the StLA.

## Appendix C—Survey Questionnaire

- 185 Other assistance. Expenditures for other assistance to libraries and library cooperatives not reported in items 179-184, such as financial assistance to school library media centers. Exclude construction aid.
- 186 Total financial assistance to libraries and library cooperatives. Sum of items 179-185.  
Other expenditures for StLA and Allied Operations Only (items 187 and 188)
- 187 Capital outlay. Funds for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment (including major computer installations), initial book stock, furnishings for new or expanded buildings, and new vehicles. Exclude replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Exclude the amount reported for this item from all other items except item 189. Include construction aid expended on the StLA. Exclude construction aid expended on other libraries and library cooperatives. Include expenditures for allied operations only if the expenditures are from the StLA budget.  
  
Note: State accounting practices shall determine whether a specific item is a capital expense or an operating expense, regardless of the examples in this definition.
- 188 Other expenditures. These are expenditures not reported in items 173-187. Exclude construction aid. Include expenditures for allied operations only if the expenditures are from the StLA budget.
- 189 Total expenditures. Sum of items 178 and 186-188.

### Part L. LSTA State Program Expenditures

19. Enter in the spaces provided total LSTA state program expenditures, by type of expenditure. Report expenditures in one and only one category. These expenditures should also be reported in Part K.
- 190 Statewide services (exclude sub-grants to single libraries or agencies providing statewide services). Funds expended by the StLA to provide services to libraries and individuals throughout the State. Include expenditures for statewide services conducted directly by the StLA. Exclude sub-grants made to single libraries or other outside agencies to provide or assist in providing such services.  
  
Note: These expenditures should also be reported in Part K, under operating expenditures (items 173-178); capital outlay (item 187); or other expenditures (item 188), as appropriate. DO NOT report them as financial assistance to libraries and library cooperatives (items 179-186).
- 191 Grants (include sub-grants to single libraries or agencies providing statewide services). Funds distributed by the StLA to recipients who meet eligibility criteria specified by LSTA and the State. Such funds are usually awarded for purposes specified in successful grant proposals. Such grants may be awarded competitively or on a formula basis. Include sub-grants made to single libraries or other outside agencies to provide or assist in providing statewide services.  
  
Note: These expenditures should also be reported in Part K, under financial assistance to libraries and library cooperatives (items 179-186), as appropriate. DO NOT report them as StLA operating expenditures (items 173-178), capital outlay (item 187), or other expenditures (item 188).
- 192 LSTA administration. Expenditures of LSTA funds for administrative costs in connection with programs and services carried out under this Act.
- 193 Total LSTA expenditures. Sum of items 190-192.
20. Enter in the spaces provided total LSTA state program expenditures, by use of expenditure. Report expenditures in one and only one category. These expenditures should also be reported in Part K.

## Appendix C—Survey Questionnaire

Note: LSTA administration expenditures in item 197 must equal LSTA administration expenditures in item 192. And total LSTA expenditures in item 198 must equal total LSTA expenditures in item 193.

- 194 Library technology, connectivity and services. Report LSTA expenditures (including expenditures for statewide services and grants) for digitization; database licenses/commercial databases; GIS (geographic information systems); computer equipment, software, labs; Internet and other networking capabilities; technical training for library staff; interlibrary loan systems; community information centers; retrospective conversion and automation; and video conferencing equipment and connections.
- 195 Services to persons having difficulty using libraries. Report LSTA expenditures (including expenditures for statewide services and grants) for services to persons with physical or learning disabilities; assistive technologies and devices; prison and jail services; services to nursing homes and other institutions; talking books; outreach services; bookmobiles; computer vans; and services for migrant workers and non-English speakers.
- 196 Services for lifelong learning. Report LSTA expenditures (including expenditures for statewide services and grants) for homework center/helper; after school programs; literacy for children, adults, families; English for Speakers of Other Languages (ESOL); babies and books; summer reading clubs; information and computer literacy training; online and distance education; 24-7 online reference services; staff development and training; and library development initiatives.
- 197 LSTA administration (must equal amount reported in 192). Report expenditures of LSTA funds for administrative costs in connection with programs and services carried out under this Act.
- Note: LSTA administration expenditures in item 197 must equal LSTA administration expenditures in item 192.
- 198 Total LSTA expenditures (must equal amount reported in 193). Sum of items 194-197.
- Note: Total LSTA expenditures in item 198 must equal total LSTA expenditures in item 193.
- 199-205 (These items are reserved for future use.)

### Part M. Electronic Services and Information (a)

21. Enter Yes or No for each item to indicate whether the StLA funds or facilitates the specified electronic networking functions at the State level.
- Note: A State-level electronic information network involves the wide-area use of telecommunications to link libraries via micro-computers or terminals to automated library systems. The network may include online public access catalogs and other library applications; locally mounted or online databases (bibliographic, full text, or data); bibliographic utilities; and other information resources. Access to such networks may be via modem (i.e., dial access) or dedicated lines (i.e., hard-wired). Such a network may or may not be connected to the Internet.
- 206 Electronic network planning or monitoring. Includes drafting Statewide plans, requests for proposals, and contracts and monitoring contracts for network development.
- 207 Electronic network operation. Includes acquiring, maintaining, or replacing substantial technological equipment necessary to provide access to information in electronic and other formats made possible by new information and communication technologies. May include hosting or sharing a mainframe, minicomputer, or file server, or facilitating reciprocal borrowing agreements and document delivery systems necessary to fully exploit such a network. Such a network may or may not be connected to the Internet.

## Appendix C—Survey Questionnaire

### Database Development

Note: Activities may include creation of new databases or conversion of existing databases into electronic format. Includes bibliographic databases as well as full text or data files.

- 208 Bibliographic databases. Includes machine-readable catalog records, other electronic indexes, and other databases which contain only references to or condensed surrogates for original materials.
- 209 Full text or data files. Full text files are files in which the information consists of the content of one or more complete intellectual products initially expressed primarily through the written word. Data files report the content of one or more complete intellectual products expressed primarily with numbers.
22. Enter Yes or No to indicate whether the StLA funds or facilitates digitization or digital programs or services in any of the following instances.
- Note: Digitization or digital programs or services includes activities providing for the digitization of documents, publications or sets of records or realia to be made available for public use.
- 210a For the StLA itself
- 210b Via grants or contracts to other state agencies
- 210c Via grants or contracts to other libraries or library cooperatives
23. Enter Yes or No for each item to indicate whether the StLA funds or facilitates library access to the Internet in the specified ways.
- Note: The Internet is the global network of networks that, via a standardized addressing system and a common primary command structure, enables individuals and organizations to communicate via electronic mail, to access a host of online databases and other electronic information resources, and to transfer files electronically.
- Training or consulting to facilitate access (items 211a and 211b):
- 211a Library staff (state and local). Includes all activities that facilitate Internet awareness and use by library staff (state and local) and "training the trainer" activities.
- 211b State library end-users. Includes all activities that facilitate Internet awareness and use by actual or potential state library end-users.
- 212 Providing direct funding for Internet access. Includes any grants of State, federal, and/or other StLA funds to libraries or related organizations that facilitate (1) establishing Internet accounts for library-related individuals or organizations; (2) acquiring computer hardware, software, or peripherals necessary for Internet access; and (3) training or consulting with actual and potential Internet users.
- 213 Providing equipment. Includes computer hardware, software, and peripherals necessary for Internet access. Critical types of equipment, beyond basic hardware and operating system software, include modems and telecommunications software.
- 214 Providing access to directories, databases, or online catalogs via the Internet. Includes bibliographic files, locator files, and/or full text databases produced or licensed by the state library agency and available via the Internet. Note: This item focuses on content available via the Internet.
- 215 Managing a web site, file server, bulletin boards, or electronic mailing lists. Includes the development and maintenance of Internet menu systems, operation of equipment that provides Internet access to multiple files, or posting of electronic messages via the Internet. Note: This item focuses on the structure through which content is available via the Internet.

## Appendix C—Survey Questionnaire

- 216-219 (These items are reserved for future use.)
24. Enter in the spaces provided the number of workstations that are used for Internet access by the general public in all StLA outlets that serve the public, by the specified categories. Include terminals used by both the StLA staff and the public. Exclude terminals that are for StLA staff use only.
- Note: Report data only for all StLA outlets that serve the general public. Exclude data for: (a) a local public or academic library serving as a State resource center or State reference/ information service center under contract with the StLA; (b) outlets that only serve blind and physically handicapped individuals through the National Library Service for the Blind and Physically Handicapped, Library of Congress; (c) outlets that only serve residents of State correctional institutions or residents of other State institutions; (d) outlets that only serve state government employees; and (e) non-StLA outlets, even though the StLA may provide funding or services to such outlets.
- 220a Number of library-owned public-access graphical workstations that connect to the Internet for a dedicated purpose (e.g., to access an OPAC or specific database, or to train the public) or multiple purposes. (For this count, the term "library-owned" includes computers leased by the state library agency.)
- 220b Number of all other public access Internet workstations in the library. (Report non-library computers placed in the library by other agencies or groups. Report non-graphical workstations.)

### Part M. Electronic Services and Information (b)

- 221-222 (These items are reserved for future use.)
25. Enter in the spaces provided total StLA expenditures for statewide database licensing, by source of revenue. These expenditures should also be reported in Part K.
- 223 Statewide database licensing. Statewide contracted rights for access to and use of database(s) by libraries that are parties to a licensing agreement.
26. Enter Yes or No for each item to indicate whether statewide database licenses, paid for by the funds reported in question 25, include access by the following:
- 224 Public libraries (definition is provided in question 5).
- 225 Academic libraries (definition is provided in question 5).
- 226 School library media centers (definition is provided in question 5).
- 227 Special libraries (definition is provided in question 5).
- 228 Library cooperatives (definition is provided in question 5).
- 229 Other state agencies
- 230 Remote users. Authorized users having access to and use of licensed database(s) from sites outside of a library building.
27. Enter Yes or No to indicate whether the StLA facilitates or subsidizes electronic access to the bibliographic records or holdings of other libraries in the state, by the specified categories.
- 231 CD-ROM union catalog. A CD-ROM union catalog lists the holdings of participating libraries on one or more compact discs. The electronic indexes and bibliographic records can be accessed only by libraries with compatible hardware (computer, CD-ROM drives) and proprietary software.

## Appendix C—Survey Questionnaire

- 232 (This item is reserved for future use.)
- 233 Telnet gateway. A Telnet gateway allows users to log onto the on-line catalogs of other libraries via the Internet. Telnet access is available in text format only.
- 234 Web-based union catalog (international, national, statewide, multistate, regional). A web-based union catalog makes the aggregated electronic holdings of libraries in a nation, region, a library cooperative serving more than one type of library, or a state available via the world wide web. Holdings and indexes for a web-based union catalog are mounted on a server that is connected to the Internet. Access to the bibliographic information in a web-based union catalog is available to any user with an Internet connection and a standard web browser. National union catalogs include The Library of Congress and OCLC. OCLC also provides the holdings of libraries outside the United States. Note: Report access to a web-based union catalog via a Z39.50 gateway in this item, as it is a web-based protocol.
- 235 (This item is reserved for future use.)
- 236 Other type of electronic access. If the StLA facilitates or subsidizes a type of electronic access to the holdings of other libraries in the state not covered in items 231 to 234, enter Yes for this item.
- 237 Specify. If Yes was indicated for item 236, enter the type of electronic access in this item.
28. Enter Yes or No to indicate whether the StLA is an applicant for the Universal Service Program (also known as the E-rate discount program).
- 238 Applicant for Universal Service Program. The Universal Service Program was established by the Federal Communications Commission (FCC) under the Telecommunications Act of 1996. To be considered an applicant, the StLA must have an FCC Form 470 and Form 471 on file with the FCC.

### Part N. Public Policy Issues (Data not collected of question 29 for FY2009)

29. Enter in the spaces provided the total grants and contracts expenditures (from all sources) by the StLA to assist public libraries in responding to goals in a state or federal education reform initiative in the following areas. These expenditures should also be reported in Part K.
- 239 Library technology, connectivity and services. Digitization; database licenses/commercial databases; GIS (geographic information systems); computer equipment, software, labs; Internet and other networking capabilities; technical training for library staff; interlibrary loan systems; community information centers; retrospective conversion and automation; and videoconferencing equipment and connections.
- 240 Services to persons having difficulty using libraries. Services to persons with physical or learning disabilities; assistive technologies and devices; prison and jail services; services to nursing homes and other institutions; talking books; outreach services; bookmobiles; computer vans; and services for migrant workers and non-English speakers.
- 241 Services for lifelong learning. Homework center/helper; after school programs; literacy for children, adults, families; English for Speakers of Other Languages (ESOL); babies and books; summer reading clubs; information and computer literacy training; online and distance education; 24-7 online reference services; staff development and training; and library development initiatives.

## Appendix D—Item Response Rates and Total Quantity Response Rates (only displaying response rates less than 95.0 percent)

Item Response Rate—The ratio of the number of eligible units responding to an item to the number of responding units eligible to have responded to the item.

Total Quantity Response Rate (TQRR)—The ratio of total quantity of data from responding units to the total estimated quantity for all units eligible for tabulation (includes imputed data). The TQRR measures the percentage of the total quantity of a given variable that was actually reported by respondents, as opposed to being imputed during data processing.

VARIABLE	DESCRIPTION	ITEM RESPONSE RATE	TOTAL QUANTITY RESPONSE RATE
COROUTC	Serving residents of state correctional institutions - Bookmobiles	100.0	‡
OTSTOUTC	Serving residents of other state institutions - Bookmobiles	100.0	‡
GOVDOC	Government documents	96.1	88.1

\* Item response rate less than 80.0 percent, IMLS's statistical standard.

\*\* Total quantity response rate less than 70.0 percent, i.e., does not meet IMLS's statistical standard.

‡ All respondents in state reported value of 0 (no nonrespondents).

† All respondents in state reported value of 0 and all nonrespondents were imputed as 0.

—Total nonresponse (all nonrespondents were imputed as 0).
